USER MANUAL

Document Tracking System (DTS)

User Guide for Managing, Monitoring, and Tracking Document Movement

PREPARED FOR

DTS Users, Staff, and Administrators

PREPARED BY

Zea Mickaela Millen De Sagun

Steps:

1. From the Login page, click the **Create Account** link.
2. The Create Account modal will appear.
3. Enter your Name in the Name field.
4. Enter your preferred User Name.
5. Enter your Password.
6. Re-enter the same password in the Confirm Password field.
7. Click the Show button if you want to view the password you typed.
8. Click the Create Account button to register the account.
9. If the registration is successful, an Account Created modal will appear.
10. Read the confirmation message that the account was created successfully.
11. Click the Login now button to proceed to the login page.
12. Log in using your registered User Name and Password.
13. If you do not want to continue creating an account, click the Cancel button to close the modal.

Note:

Make sure that the Password and Confirm Password fields match before creating the account. A success modal will appear once the account has been created successfully. After that, the user may log in using the registered Login Name and Password.

Documents Year: 2026 + New Document

Total Documents 2387

For Receiving 2 Click to view pending receiving

Received 0 Received, waiting for Select Action

Addressed 1 Received documents with Selected Action

Returned 0 Click to view returned records

Search Documents
Search checks all visible table columns, including document number, type, offices, subject, dates, status, personnel, and remarks.
Show 10 entries
Search Reset

Document List
Latest document records from the DTS database. Showing 1 to 10 of 2387 entries

DOC ID	TO	SUBJECT	DATE SEND	STATUS	ACTION
DTS - #184307	Zea Mickaela Millen De Sagun	Subject for Testing	Jun 30, 2026, 8:53 AM	For Receiving	View
DTS - #184306	Zea Mickaela Millen De Sagun	ddcas	Jun 30, 2026, 7:26 AM	Received	View

Steps:

1. After clicking the Login button, the user will be redirected to the Dashboard page.
2. Check the summary cards to view the number of Total Documents, For Receiving, Received, and Returned documents.
3. Use the Year dropdown to filter the dashboard records by selected year.
4. Use the Search Documents field to search for a specific document by Document ID, subject, or regarding.
5. Click the Search button to display the matching document records.
6. Click the Reset button to clear the search field and return to the default document list.

Note:

The Dashboard displays an overview of the documents assigned to the logged-in user. The numbers and records shown may change depending on the selected year, search keyword, and available document records.

Steps:

1. Click the Incoming menu from the sidebar.
2. The system will display the Incoming Documents page.
3. Select the needed Year from the dropdown located at the upper-right side of the page.
4. Use the Search field to look for a specific incoming document.
5. Click the Search button to apply the search filter.
6. Click the Reset button to clear the search and return to the default list.
7. Review the document details such as DTS #, Type, From, Subject, Date Sent, Status, and Action.
8. Check the Status column to identify if the document is For Receiving, Received, or Pending.
9. Click the Receive button to mark a document as received.
10. Click the View button to open and review the document details.
11. Use the page indicator to monitor the current page of the incoming document list.

Note:

The Incoming Documents page displays documents sent or assigned to the logged-in user. The available action may change depending on the current status of the document.

Showing 1 to 4 of 4 entries Previous 1 Next

Steps:

1. Click the Library menu from the sidebar.
2. The system will display the Library page. The page will show the available library tabs such as Personnel, Office, Doc Type, and Action Taken.
3. Select the tab that you want to view or manage.
4. Use the Search field to look for a specific record.
5. Use the Show entries dropdown to adjust the number of records displayed in the table.
6. Click the Reset button to clear the search filter and return to the default list.
7. To add a new record, click the + Add New Record button.
8. Fill out the required information based on the selected library tab.
9. Click the Save Record button to save the new entry.
10. Use the Edit button to update an existing record.
11. Use the Delete button to remove a record. A confirmation message may appear before the record is deleted.
12. Use the pagination controls such as Previous, page number, and Next to navigate through the records.

Note:

The displayed records depend on the selected library tab. In the Personnel tab, the table shows details such as Personnel, Office, and available Actions.

About

About

Document Tracking System workspace.

Document Tracking System

DTS is a web-based document tracking platform designed to help offices encode, receive, route, return, monitor, and manage official documents in one organized workspace. It improves visibility of document movement and helps users quickly identify pending actions, assigned personnel, and document history.

Document Monitoring Routing & Receiving Action History

SYSTEM PURPOSE

Faster Tracking
Quickly locate documents and see their current movement status.

Clear Accountability
Know who received, returned, transferred, or still needs to act on a document.

Document Encoding
Add document details, classification, document type, concerned staff, and attachments.

Receiving
Mark documents as received and confirm that the assigned office or personnel has taken action.

Transfer & Return
Forward documents to the proper personnel or return them with remarks when needed.

Monitoring Reports
View transaction summaries, pending actions, and monitoring dashboard reports.

DOCUMENT FLOW

How documents move in DTS

The system keeps every step visible so users can check where a document is, who should act on it, and what actions were already performed.

- 1 Encode
- 2 Assign
- 3 Receive
- 4 Transfer / Return
- 5 Monitor

Who can use the system?
DTS is intended for authorized users who encode, route, receive, return, monitor, and manage office documents. Access is role-based so each user only sees the modules and actions allowed for their role.

Need assistance?
For account access, incorrect document routing, missing notifications, or report concerns, contact the system administrator or the assigned DTS monitoring staff.

Steps:

1. Click the About menu from the sidebar.
2. The system will display the About page of the Document Tracking System.
3. Review the system description to understand the purpose of DTS.
4. Check the System Purpose section to learn how the system supports faster tracking and clear accountability.
5. Review the feature cards such as Document Encoding, Receiving, Transfer & Return, and Monitoring Reports.
6. Check the Document Flow section to understand the process of document movement from encoding to monitoring.
7. Read the assistance section for guidance on who to contact for account access, routing concerns, notifications, or report issues.

Note:

The About page is for information purposes only. It helps users understand the system purpose, main functions, document flow, and support details.
