USER MANUAL

Document Tracking System (DTS)

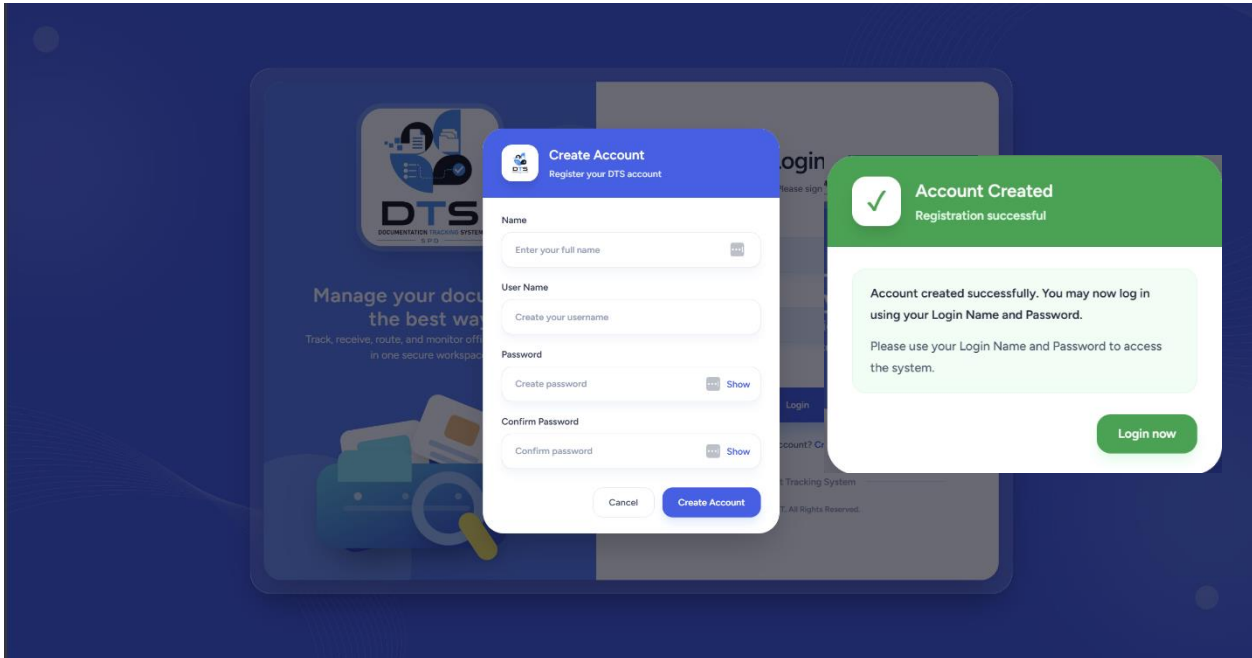

User Guide for Managing, Monitoring, and Tracking Document Movement

PREPARED FOR

DTS Users, Staff, and Administrators

PREPARED BY

Zea Mickaela Millen De Sagun

Steps:

1. From the Login page, click the **Create Account** link.
2. The Create Account modal will appear.
3. Enter your Name in the Name field.
4. Enter your preferred User Name.
5. Enter your Password.
6. Re-enter the same password in the Confirm Password field.
7. Click the Show button if you want to view the password you typed.
8. Click the Create Account button to register the account.
9. If the registration is successful, an Account Created modal will appear.
10. Read the confirmation message that the account was created successfully.
11. Click the Login now button to proceed to the login page.
12. Log in using your registered User Name and Password.
13. If you do not want to continue creating an account, click the Cancel button to close the modal.

Note:

Make sure that the Password and Confirm Password fields match before creating the account. A success modal will appear once the account has been created successfully. After that, the user may log in using the registered Login Name and Password.

Document List
Latest document records from the DTS database. Showing 1 to 2 of 2 entries

DOC ID	TO	SUBJECT	DATE SEND	STATUS	ACTION
DTS - #184307	Zea Mickaela Milen De Sagun	Subject for Testing	Jun 30, 2026, 8:53 AM	For Receiving	View
DTS - #184306	Zea Mickaela Milen De Sagun	ddsas	Jun 30, 2026, 7:26 AM	Received	View

Steps:

1. After logging in, the system will display the Documents page.
2. Select the needed Year from the dropdown located at the upper-right side of the page.
3. Review the document summary cards such as Total Documents, For Receiving, Received, Addressed, and Returned.
4. Click the For Receiving card to view documents that still need to be received.
5. Use the Search Documents field to search for a specific document.
6. Click the Search button to apply the search filter.
7. Use the Show entries dropdown to adjust the number of documents displayed in the table.
8. Review the document details in the Document List, such as DOC ID, To, Subject, Date Sent, Status, and Action.
9. Click the View button to open and review the full details of the selected document.
10. Check the notification bell at the top-right side of the page to see if there are pending document notifications.
11. If the notification bell shows a badge count, click the notification bell to open the Document Notifications modal.
12. Review the notification details such as status, DTS number, document subject, and date/time received.
13. Click View Details to open the full document information from the notification.
14. Click Close to exit the notification modal.

Note:

The Documents page displays the documents assigned or visible to the logged-in user. The status badges help identify whether a document is For Receiving or already Received. The notification bell helps alert the user if there are pending documents or updates that need attention. The badge count indicates the number of pending notifications.

REMARKS

Optional action remarks.

OTHER DOCUMENT ACTIONS

Transfer and Return are under Select Action. They are available only after the tagged document has been received and before the document reaches an end process.

Transfer Document

Return Document

Cancel

Confirm

Steps:

1. Click the View button from the Document List.
2. The system will display the Document Details page.
3. Review the document information such as DTS ID, status, subject, From, To, Type, Entry Date, Classification, Staff Concern, Current Remarks, and Attachments.
4. If the document is still marked as For Receiving, click the Receive Document button under Quick Actions.
5. Once the document is received, the Receive Document button will change into a Select Action button.
6. Click the Select Action button to choose the next action for the document.
7. To return a document, select Return Document, enter the required Return Remarks, then click Confirm Return. The document will be returned to the sender or previous office/personnel.
8. To transfer a document, select Transfer Document, choose the receiving personnel from the Transfer to Personnel dropdown, enter remarks if needed, then click Confirm Transfer. The document will be forwarded to the selected personnel.
9. Click View Action History to view all recorded transactions and actions for the selected document.
10. To add a remark, enter your comment in the Add Remarks field, then click + Add Remark.
11. To upload a supporting file, click + Attach File in the Attachments section.
12. Click Back to Homepage to return to the main page.

Note:

RETURN

Close

Return Document

Steps:

1. Click the All-Documents menu from the sidebar.
2. The system will display the All-Documents page.
3. Select the needed Year from the dropdown located at the upper-right side of the page.
4. Use the Search Documents field to look for a specific document.
5. Click the Search button to apply the search filter.
6. Click the Reset button to clear the search and return to the default list.
7. Use the Show entries dropdown to adjust the number of documents displayed in the table.
8. Review the document details in the All-Documents List, such as DOC ID, To, Subject, Date Sent, Status, and Action.
9. Click the View button to open and review the full details of the selected document.

Note:

The All-Documents page displays all document records in the system, regardless of whether the document is assigned or tagged to the logged-in user. Documents that are not tagged or assigned to the user are available for viewing only. The available actions may depend on the user's role, access level, and document status.

DTS #	Type	To	Subject	Distribution Date	Return Date
DTS - #184307	Acknowledgement Receipt for Equipment	DOST-Office of Assistant Secretary for HRD & Special Concerns	Subject for Testing	Jun 30, 2026, 8:53 AM	-
DTS - #184306	Acknowledgement Receipt for Equipment	Special Projects Division	ddsas	Jun 30, 2026, 7:26 AM	-

Steps:

1. Click the Outgoing menu from the sidebar.
2. The system will display the Sent Documents page.
3. Select the needed Year from the dropdown located at the upper-right side of the page.
4. Choose between the Sent Documents and Pulled Out Documents tabs.

5. Choose between the Sent Documents and Pulled Out Documents tabs.
6. Use the Search field to look for a specific outgoing document.
7. Click the Search button to apply the search filter.
8. Use the page indicator to monitor the current page of the outgoing document list.

Note:

The Sent Documents tab displays documents that were distributed or sent to offices or personnel. The Pulled Out Documents tab displays documents that were pulled out or not returned. The Return Date column will show the return date if the document has been returned; otherwise, it will display a dash (-).

Steps.

1. Click the Library menu from the sidebar.
2. The system will display the library page.
3. Select the tab that you want to view, such as Personnel, Office, Doc Type, or Action Taken.
4. Use the Search field to look for a specific library record.
5. Use the Show entries dropdown to change the number of records displayed.
6. Use the pagination buttons such as Previous, page number, and Next to move through the records.
7. For Personnel, Office, and Doc Type, the user can only view and search records if the page is in Viewer Only Access mode.
8. For the Action Taken tab, the user can add a new action taken record, edit an existing record, or delete a record if needed.
9. Click the Add New Record button to add a new Action Taken record.
10. Use the Edit button to update an existing Action Taken record.
11. Use the Delete button to remove an Action Taken record.

Note:

In Viewer Only Access mode, the user can only view and search most library records. However, in the Action Taken tab, adding, editing, and deleting records are allowed.

About

About

Document Tracking System workspace.

Document Tracking System

DTS is a web-based document tracking platform designed to help offices encode, receive, route, return, monitor, and manage official documents in one organized workspace. It improves visibility of document movement and helps users quickly identify pending actions, assigned personnel, and document history.

Document Monitoring Routing & Receiving Action History

SYSTEM PURPOSE

Faster Tracking
Quickly locate documents and see their current movement status.

Clear Accountability
Know who received, returned, transferred, or still needs to act on a document.

Document Encoding

Add document details, classification, document type, concerned staff, and attachments.

Receiving

Mark documents as received and confirm that the assigned office or personnel has taken action.

Transfer & Return

Forward documents to the proper personnel or return them with remarks when needed.

Monitoring Reports

View transaction summaries, pending actions, and monitoring dashboard reports.

DOCUMENT FLOW

How documents move in DTS

The system keeps every step visible so users can check where a document is, who should act on it, and what actions were already performed.

- 1 Encode
- 2 Assign
- 3 Receive
- 4 Transfer / Return
- 5 Monitor

Who can use the system?

DTS is intended for authorized users who encode, route, receive, return, monitor, and manage office documents. Access is role-based so each user only sees the modules and actions allowed for their role.

Need assistance?

For account access, incorrect document routing, missing notifications, or report concerns, contact the system administrator or the assigned DTS monitoring staff.

Steps:

1. Click the About menu from the sidebar.
2. The system will display the About page of the Document Tracking System.
3. Review the system description to understand the purpose of DTS.
4. Check the System Purpose section to learn how the system supports faster tracking and clear accountability.
5. Review the feature cards such as Document Encoding, Receiving, Transfer & Return, and Monitoring Reports.
6. Check the Document Flow section to understand the process of document movement from encoding to monitoring.
7. Read the assistance section for guidance on who to contact for account access, routing concerns, notifications, or report issues.

Note:

The About page is for information purposes only. It helps users understand the system purpose, main functions, document flow, and support details.
